## Land acquisition

NorthChurch Homes has the ability to search for and identify the best land to develop - to benefit the local area and surrounding communities. We have experience in adding value to the land and to those with whom we work. We also pride ourselves on our approach to site management, ensuring everything is clean and well organised, causing as little disturbance to the local neighbourhood as possible.

## From planning to aftercare

We take care of our developments and customers at every step of the building and purchase process. From the initial planning stages and all the way through to aftercare, we are involved at all levels, to maintain the smooth running and high standards we are known for.

## ATTENTION TO DETAIL

What sets us above the norm is the attention to detail we apply to each and every development we undertake. We demand and receive the very highest standards from all of our building contractors teams, and bring on board only the best craftsmen with a practiced eye for the detail and for those little things that make a home stand out. Our customers can therefore expect the most unique and high quality finish for their homes.
